## Professional Summary

---

I've spent years working and managing medical equipment in the health care field but now I'm making a shift into website and graphic design because that's where my real passion lies. I'm hands-on with website development, responsive design, and e-commerce, and I bring a mix of technical skills with creative problem-solving. I'm skilled in Adobe Creative Suite, HTML, CSS, WordPress, and digital marketing tools like SEO and Google AdWords. I'm always learning and currently studying website development and design currently at Harrisburg Area Community College so I will be able to take my skills to the next level. I'm excited about stepping into a role where I can create meaningful digital experiences and make an impact.

## Work Experience

---

### Endoscopy Equipment Technician

PENN STATE HERSHEY MEDICAL CENTER-Hershey, PA

October 2017 to Present

- Manage the decontamination and reprocessing of endoscopy equipment, ensuring compliance with health and safety standards, improving procedure turnaround times.
